

Lovely hands glove size guide

Lovely hands sell 4 glove manufacturers products. They are all made of different materials and based on slightly different hand measurements.

To help you buy online and get the best fitting gloves first time lovely hands has put together their own **group of men** to try on the gloves and give their size preferences. 3 key hand measurements have also been captured for most of these men, which will help you find a buddy who is most like you.

Based on this research, which is geared to help you successfully buy your correct size online, Lovely hands has overridden some of the glove labels worded descriptions in favour of a description that reflects the findings and will guide you better. This is what you will see in the select a size / choose and option box on the glove product pages.

If you have any queries please contact me and we can look at the information together and make an informed decision.

Gloves are quite a personal thing, from correct fit to preferences in material, I am here to help.
